Work Experience

Splitbit Innovative Solutions LLP, Hyderabad

Mar 2025 - Present

Full-Stack Developer

- Contributed to the **Global Fintech Fest @2025** project, working with senior developers on Strapi CMS for managing backend modules such as Sessions, Events, Speakers, Hackathons, and Live Event Management. Delivered quick, controlled APIs leveraging component-based structures, ensuring maintainability and faster feature rollout.
- Led the development of a full-scale OCR automation platform with advanced text extraction, schema-driven validation, and customizable output mapping. Integrated Zoho Books (Sales Orders, Purchase Orders, Invoices), Google Sheets, Excel, and QuickBooks using secure OAuth-based authentication to enable seamless post-extraction automation. Implemented auto-ingestion of processed data into internal systems with configurable schemas and fields based on business requirements.
- Enhanced the platform with a chat-based automation layer powered by OpenAI (GPT-4o-mini), allowing paid users to create projects, manage settings, configure workflows, and control system behavior entirely through prompts, eliminating manual UI operations while ensuring scalability, performance, and enterprise-grade reliability.
- Designed and developed the company's official website with a pixel-perfect, responsive architecture, ensuring smooth UX/UI transitions across all devices. Implemented SEO optimization strategies including structured **metadata**, **robots.txt**, **sitemap.xml**, **schema markup**, and **canonical tags**. Achieved higher search engine rankings and improved site indexing by 40%+.

Rampwin Technologies Pvt Ltd, Jaipur , Rajasthan

Oct 2024 - Mar 2025

Software Engineer

- Contributed to enhancing their existing chat commerce application an chat system by developing a coupon management module and integrating Salesforce APIs for lead management and automation. Responsibilities included implementing OAuth authentication, triggering automated messages upon lead creation, and optimizing workflows. Resolved critical bugs to ensure system stability and collaborated with stakeholders to deliver high-quality features.
- Javascript, React.Js, Redux, Material UI, Chart.Js, Mongo DB, Node.Js, Web Socket, Salesforce API

Venturesathi Business Services LLP, Rourkela

Nov 2023 - Oct 2024

Software Developer

- Led the development of an ERP Application, managing modules from purchasing to sales. Integrated accounting features with Tally, reducing paperwork by 70% and enabling automated calculations for seamless management reporting.
- Developed a robust HR Management System, reducing HR work by 80%, and featuring live location tracking, punch in/out , real-time tracking, asset management, expense management, task management, leave tracker, performance management, learning management, AI Chatbot for support & many more.
- Collaborated with backend and design teams to develop comprehensive solutions.
- Designed and implemented an Employee Management System, optimizing HR processes.
- Deployed applications using Digital Ocean, overseeing and managing all deployment processes.
- Javascript, React.Js, Redux, Material UI, Chart.Js, Postgres SQL, Node.Js
